### DETAILED ACTION

This application has been examined. Claims 1-15, and 20-26 are pending. Claims 16-19 have been cancelled.

#### *Reasons For Allowance*

1. The following is an examiner's statement of reasons for allowance: The present invention is directed to a method of displaying frames of images or a wearable display comprising; generating an inner region display of the frame of an image; determining at least one of motion or color characteristic from the inner region display signal; generating an outer region display signal of the frame of the image; displaying an inner region of the frame of the image on a display using the inner region display signal. The combination of the closest prior art of Harmut (JP 09-220200) and Ketrenos (US 6,788,311) show a similar invention. However, they fail to teach generating an outer region display signal of the frame of the image using the at least one motion or color characteristic and wherein the outer region of the display is of substantially lower resolution than the inner region as claim 1; or an outer region display signal using at least one of a motion, brightness or color characteristic from the inner region display signal as claim 8; or adjusting the image signal data so that the source image conveyed by the image signal data is distorted according to the determined amount of distortion; generating a display signal using the adjusted image signal data; and displaying a distorted image on a display by using the display signal as claim 13; or the optics modify an image displayed by the display by distorting an outer region of the image by greater amount than an inner region of the image so that a field of view of the image is increased as claim 20; or a display device having an inner region and an outer region of substantially lower resolution than the inner region; and an inner

region display signal that couples to the inner region, and an outer region display signal that couples to the outer region as claim 22

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
